

Teambuilding: the road to success

RINUS MICHELS
TEAMBUILDING
the road to success

Reedswain Publishing

For the past 35 years, Rinus Michels has been involved in the absolute top of international soccer. The Dutch coach of the century developed the principles of Total Soccer first at Ajax and then with the Dutch national team during World Cup '74. His credentials as the coach of Ajax, FC Barcelona, 1 FC Köln, and the Dutch national team are impressive.

Since the end of his coaching career (1992) he has taken on the role as soccer technical advisor with the Royal Dutch Football Association (KNVB). Rinus Michels is a member of a number of different UEFA committees. He takes part in soccer technical studies during European Championships and World Cups. He has spoken as an expert in team building to many students during international soccer coaching courses.

Rinus Michels has called upon all his knowledge and experience to write 'Team Building the road to success'. The result is a 'soccer bible' for coaches, trainers, and managers throughout the world as a source of inspiration.

All the facets of the team building process, including team tactics and psychology, are included down to the minutest detail. Also included is how youth talent, per age group category, should be developed. And finally, how to set up training sessions to achieve the best results.

All the chapters are interspersed with examples from Rinus Michels' personal experiences as a trainer. At the same time he gives a reference framework for everyone who is, on a daily basis, involved with the team building process: from top coaches and (youth) trainers, to managers in the business world. Because of these unique examples, most of which were never published, this will be a fascinating book for anyone involved in a team building process.
